AUTHENTIC PRESSED TIN CEILINGS & WALLS

CAN BE USED AS A WAINSCOTING
OR AS A WALL COVERING

ALL SHANKER CEILINGS are made on a Mammoth power press, as illustrated, which weighs 65 tons and delivers 800 tons of pressure at every blow, thus assuring accuracy and sharpness of design. Perfection is a SHANKER ideal.

DE-ME Snap™ Technical Specifications:

Overall Dimensions: 24" x 24"
Panel Designs Available: 209, 320

Materials and Finishes

Unfinished Steel —
24 Gauge Electro-Galvanized
Zinc-Coated Steel

Prepainted White —
24 Gauge Electro-Galvanized
Zinc-Coated Steel

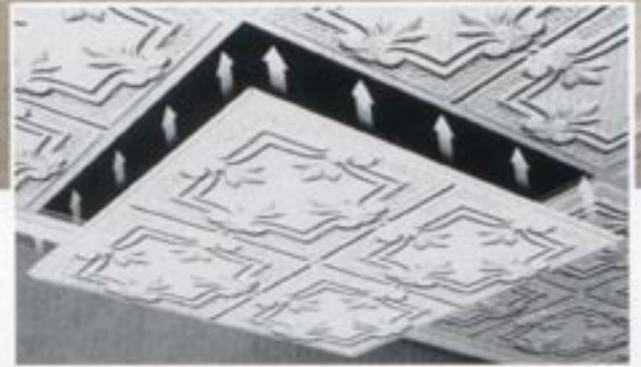

Brass-Tone —
0.032" Anodized Aluminum

Chrome Aluminum —
0.032" Aluminum

Aluminum Panels Also Available with
Acoustical Perforations

The DE-ME Snap ceiling system allows the flexibility of having a decorative metal ceiling that is 100% accessible. Each DE-ME Snap metal panel can be removed, without damage or affecting adjacent panels.

The DE-ME Snap ceiling system is available in two designs with additional designs in production. DE-ME Snap panels are available in unfinished steel, primed for paint or clear polyurethane, pre-painted white, perforated and aluminum.

3/8 Reveal Technical Specifications:

3/8" Reveal

Fits Conventional Suspended Ceiling Grids

Overall Dimensions: 23 3/4" x 23 3/4"

Face Dimensions: 22 7/8" x 22 7/8"

Depth: 3/8"

Panel Designs Available: 209, 234, 321, 503

Materials and Finishes

Unfinished Steel — 0.010" Steel

Prepainted White — 0.010" Steel

Copper Plated Steel — 0.010" Steel

Brass Finish Aluminum — .032" Anodized

Chrome Aluminum — 0.032" Aluminum

All Panels Also Available with Acoustical Perforations

A New Dimension in Ceilings:

3/8 Reveal 2x2 metal lay-in panels offer a versatile, easy-to-install ceiling system. This system's 3/8" Reveal edge provides a dynamic 3-dimensional perspective, dropping the panel below the grid.

3/8 Reveal panels are available in four different designs and a multitude of finishes, including unfinished steel ready for paint or clear polyurethane, brass aluminum, chrome aluminum, pre-painted white, copper and perforated.

3/8 Reveal panels may be used with any standard exposed 15/16" T-bar suspension system wide grids.

clever backsplashes

IT'S A METAL CEILING

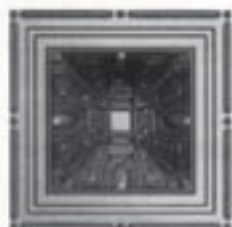

- * Enhance your kitchen with a unique backsplash.
- * Measure between countertop and cupboards.
- * Use tin snips to trim panels to fit the measurements.
- * Use conehead nails that disappear into the pattern.
- * Material is available in steel finish, prepainted white, copper, brass and chrome plated.
- * All steel finish panels must be painted.

METAL CEILINGS
ARE FOR
NEW CONSTRUCTION
AS WELL AS
RENOVATION

Tin ceilings were first introduced in the late 1800's for both residential and commercial use. Initially, they were considered to be a practical way to cover damaged plaster. It wasn't long, however, before people realized that the panels provided a manner in which to achieve an expensive hand-carved plaster look at a fraction of the cost.

Metal ceilings now provide a relatively easy and inexpensive way to create a permanent, decorative look.
