rustic beauty meets modern performance.

Fypon's Southwest Collection

Inspired by the picturesque landscapes and unique architecture of the Southwest region, Fypon has flawlessly combined beauty and performance to offer you the Southwest Collection. Made of durable, high-performance polyurethane with an authentic woodgrain texture, the Southwest Collection combines the look of real wood with the durability of urethane. From Shutters and Corbels to Rafter Tails and Beams, there is a variety of products to help you create a distinctive look for any home. But the true beauty of these products is their ability to weather the elements. Unlike wood, the Southwest Collection resists warping, splitting, moisture and insect infestation. The lightweight product construction makes them easy to install and they are virtually maintenance free. So, whether you are enhancing exterior windows or embellishing an entryway or room, the Southwest Collection offers the products you want with the details you need to add a little Southwestern flair to your home.

This catalog provides a thorough overview of Fypon Southwest products, our ordering process and much more. We hope that you find it useful. As you work with it, please call us if you have any questions or need assistance. Our local and toll-free 800 numbers are listed on every single page in this catalog. We are here to help from 8 a.m. to 5 p.m. Eastern Time, Monday through Friday. For even more current, up-to-date information, visit us on the web at www.fypon.com.

Features and Benefits

- Regionally inspired designs that can be incorporated into any home design
- Constructed of lightweight, high-density polyurethane with an authentic woodgrain texture that is virtually maintenance free
- Eliminate problems inherent to wood products including shrinkage, swelling, splintering and rotting
- Resistant to moisture and insect infestation
- Factory primed and ready to be stained or painted prior to or after installation
- Cost-effective alternative to wood products that is lighter and easier to install
- Non-structural products can be installed over a variety of home exteriors including stucco, brick and vinyl
- Standard product ships within five days and is backed by a limited lifetime warranty

shutters

Southwestern Collection Shutters feature five different styles which include Three-Board and Batten, Four-Board and Batten, Two-Plank, Three-Plank and Diagonal V-Groove. Available in a wide variety of standard window sizes, they can be installed on a variety of home exteriors including stucco brown coat.

decorative millwork

All the small details add up to make a big impact in the Southwestern Collection. Create instant visual impact with a Cove, Ogee or Bullnose Corbel. Add traditional appeal with Cove, Scroll or Straight Knee Braces. Our classic Rafter Tails are three-sided and open-ended with select sizes able to be placed over existing trusses or rafter ends.

L-shaped buried header moulding

Easily create a simulated buried beam look over a doorway or window with this Southwest Collection element. Mouldings can be field cut to length and notched on the return to fit the desired opening.

Faux beams

A beautiful interior accent, Beams come in two unique styles. The Mesa style is elegant with a more subtle woodgrain texture and the Tahoe is hand hewn with a rustic woodgrain texture. Beams are three sided and open ended allowing for flexibility in installation over existing structures. They are extremely lightweight in comparison to conventional wood beams, which make them easier to handle and install.

beam straps

Designed to simulate the look of authentic steel beam straps, Fypon's urethane beam straps come complete with realistic nuts and bolts molded into the strap's surface. Choose from the Mesa style which has a smoother appearance or the Tahoe style with a hammered, weathered appearance.

shutter | info

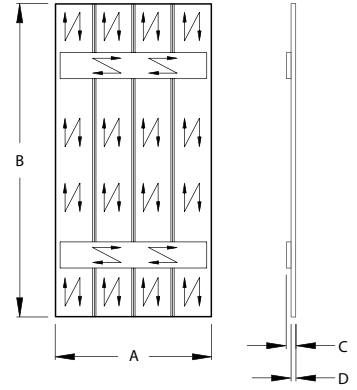

- All Southwest Collection shutters feature our realistic Cedar Woodgrain texture on all visible surfaces. Please note that trimming shutters will remove the texture and create an exposed urethane edge.
- All shutters are sold in pairs.
- Dimensions shown are actual sizes.
- Arrows indicate direction of grain.
- The Board & Batten and Diagonal V-groove styles feature the v-groove detail shown below.
