

Designed to compliment and enhance our ceiling medallions and domes, Century decorative ceiling rims add elegance and grandeur to any ceiling. Ceiling rims are often used as an architectural element around a medallion or dome. However, the truly inspired can create scallops and or majestic sweeping

curves. Combine with our vast array of straight mouldings and the possibilities are limitless.

An added bonus, in utilizing Centreflex™, a decorative ceiling rim can be custom manufactured from any Century chair rail, frieze, or panel moulding. Matching decorative accents and mouldings to any decor has never been easier!

Ceiling rim: Athens R 3463. Ceiling medallion: Florence CM 1038. Crown moulding: Hanover MC 2014.
