

# "Brittany" Flat Panel Doors

## "Brittany" Interior Doors (with applied molding)

### OPTIONS AVAILABILITY

	1 3/8"	1 3/4"
Woods	*Red Oak, Poplar, Cherry, Maple	
Arch Options	N/A	N/A
Profile Options	N/A	N/A

\* Other wood species are available on a quote basis.

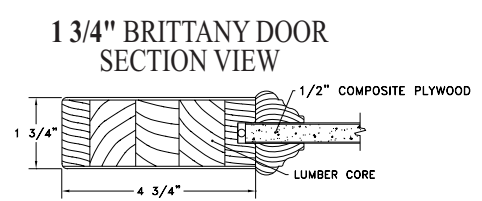

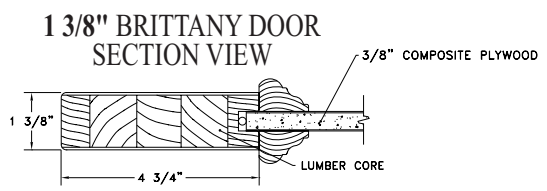

**BRITTANY:** The "Brittany" collection includes a series of door styles that are constructed with flat (recessed) plywood panels, a decorative applied molding and lumber core stiles/rails. Brittany doors are available in both 1 3/8" and 1 3/4" thicknesses. Passage and Double doors have decorative molding applied to both sides of the door. Bi-Fold units have molding applied to the front side (face) only. **Pocket and By-Pass doors are not available** because the applied molding can cause interference with the operation of the door.

### ARCH OPTIONS

Brittany doors are available with an arch on a quote basis only.

### PROFILE OPTIONS

A Profile Option designates the decorative profile of the "sticking" (inside edge of the stile/rail). The Brittany door style has a unique profile and does not require specification.

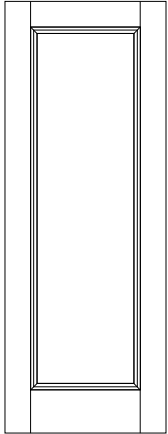

*"French" doors are not available with "Brittany" applied molding. Woodharbor recommends the "Cove & Bead" profile for French doors to coordinate with the Brittany door style.*
