HOW TO ORDER DOOR TRIM.

When ordering Door Trim, first measure the door unit to be trimmed. The unit can be measured with or without Brickmould, though Brickmould is essential when using a storm door. Next choose the desired Pilasters. For the example shown, we are retaining the Brickmould and selecting 7" fluted Pilasters.

ORDERING COMBINATION PEDIMENTS AND/OR DOOR CROSSHEADS WITH ATTACHED ACCESSORIES.

Dentil Trim, Trim Strip and Bottom Trim are available pre-attached. These are indicated in the catalog where applicable.

To order with attached Bottom Trim, refer to the part number in color listed with regular part number.

DCH54X10BT

Bottom Trim adds 1" to height/overall height.

To order attached Dentil Trim or Trim Strip, add the corresponding letter to the end of the part number.

DCH54X9D

Add "D" after the part number.

DCH54X9T

Add "T" after the part number.

DCH54X9K

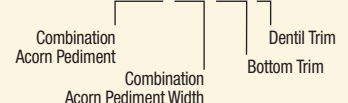

Add "K", "KP" or "KA" after the part number, depending on which style of Keystone you desire.

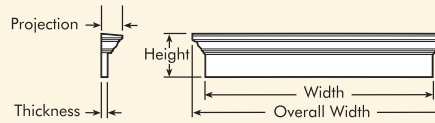

PIL 7 X 90

The door width plus the Brickmould plus the set of Pilasters equals the overall width of 54." To complete the Door Trim, this example tops the door and Pilasters with a 54" combination unit.

EXAMPLE: CAP50 T

Part Number Trim Strip

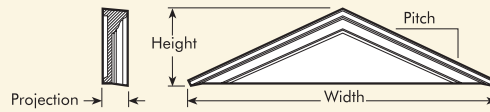

PITCH INFORMATION

Pitch indicates the incline of a roof as a ratio of the vertical rise to the horizontal run. It is properly expressed as X distance in 12 inches. For example: A roof that rises at a rate of seven inches for each foot of run is designated as having a 7/12 pitch.

Part numbers in red indicate products with Bottom Trim, which add an inch to the height of the product.
*Does not have Breastboard. Bottom Trim, Dentil Trim and/or Trim Strip not available.

The following accessories are available pre-attached to this product. To order, simply add the corresponding letter (found below the accessory drawing in parenthesis) to the main product number. To order more than one attached accessory, list all the corresponding letters of the accessories you select to the main product number. All items with attached accessories are shipped from our facility within five working days and are non-returnable.

EXAMPLE: CPCP36 T

PITCH INFORMATION

Pitch indicates the incline of a roof as a ratio of the vertical rise to the horizontal run. It is properly expressed as X distance in 12 inches. For example: A roof that rises at a rate of seven inches for each foot of run is designated as having a 7/12 pitch.

Part numbers in red indicate products with Bottom Trim, which add an inch to the height of the product.

Urn ships unattached in carton.

Door/Window Crossover Trim System

Miter corners on the job to achieve this look.

Door/Window Head Crossover Trim DWH221

Order Door/Window Head **DWH221** in a standard size and adjust width by cutting and seaming in the middle. The seam can be left as is or a **K6TM** may be used to cover it. (See illustration at left.)

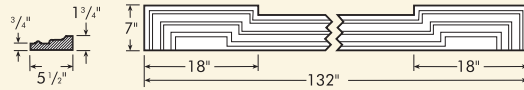

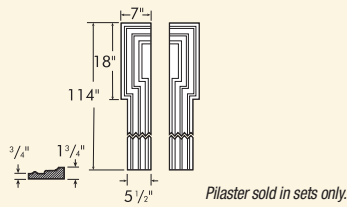

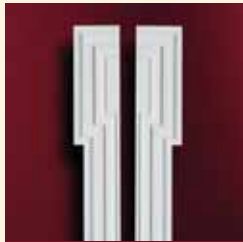

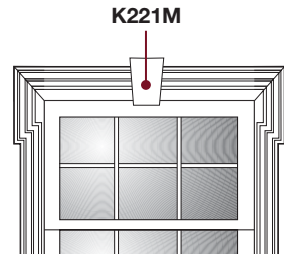

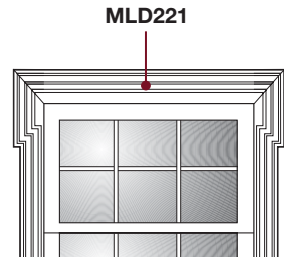

OR

Order **MLD221** Moulding and miter the corners on the job. (See illustration at right.)

OR

Order **K221M** Keystone for **MLD221** Moulding. (See illustration at right.)

Door/Window Pilaster Crossover Trim DWP221

Field trim to size - Keystone recommended.

FEATURES AND BENEFITS

- Interior and exterior applications.
- Hundreds of styles range from the ornate to simplistic.
- Customize windows and doorways inside and out.
- Available in stock and custom sizes.
- Minimal maintenance and upkeep.
- Paintable products are double-primed with an exterior grade ultraviolet stable coating.
- Unlike wood, Fypon Window and Door Trim products resist insect infestation and will not rot, warp, decay or split.
- Easy do-it-yourself installation.

For complete information on all Fypon product categories – Louvers, E-Vents, Window and Door Trim, Mouldings, Decorative Millwork, Balustrade Systems and Columns – consult our comprehensive, full-line catalog or visit www.fypon.com.
