

**ACCENTUATE YOUR GARDEN PATIO  
WITH A CHEMCREST...**

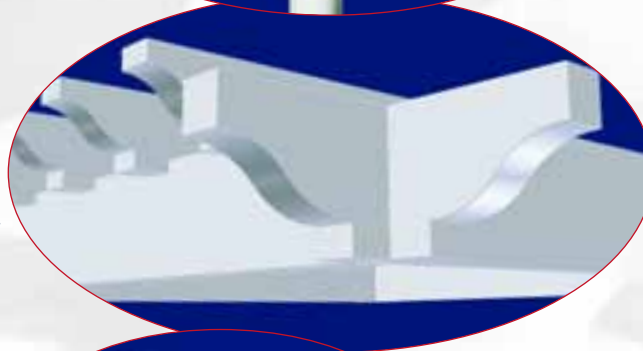

# Pergola

Architectural designers of the Renaissance period, looking to emulate the gardens of old Imperial Rome were often found to include a Pergola (Latin: pergula = projection) as an important element of their overall design. We at Chemcrest are pleased to now offer a selection of exquisite Pergolas and options that allow you to create an important statement of beauty for your establishment, home or garden.

- High Density Polyurethane Pergola with internal steel truss for structural support

- Complete structural Pergola/ Column standard size kits, ready to assemble

- Will not crack, rot or split; impervious to insects, mold and mildew

Optional trim also available

- Curved designs available
