
perfect blend technology, crown \& cornice mouldings from Century feature classic elegance and old world charm with a large array of distinctive motifs for designers, architects, craftsmen and homeowners.

Enrich both residential and commercial spaces by combining these exquisitely detailed mouldings with other Century products, such as chair rails, ceiling medallions, corbels and door and window surrounds. Whether furnishings are elegantly contemporary or traditional in style, Century mouldings live up to the most grand expectations.

8entreflex ${ }^{\text {TM }}$ flexible radius mouldings from Century offer a tremendous labor savings when installations require a curved or arched product. Available as inside radius (concave), outside radius (convex), or arched radius, using Centreflex radius mouldings expands the design possibilities.

Formaflex ${ }^{\mathrm{TM}}$ contour moulding provides an easy alternative when concave or convex applications require soft contour curves.

Both Centreflex and Formaflex are available

Chair rail: Waterman CR 3163 Formaflex ${ }^{T M}$. by custom order from our wide assortment of crown, chair rail, frieze and panel mouldings.

Crown moulding: Beaded Egg \& Dart MC 1011 / DF 1411 Centreflex ${ }^{T M}$ with Beaded Egg \& Dart Corbel CB 710.
