MOULDINGS

PL PREMIUM ADHESIVE MUST BE USED ON ALL BEDDING/BUTT JOINTS.

SPECTIS RESERVES THE RIGHT TO HOLLOW OUT BACK OF ANY PRODUCTS WITHOUT NOTICE.

CUSTOM FINISHING

Spectis' finishing department can color match, prepare, and paint all of our catalogue items, in house! We have partnered with the Sherwin Williams line of finishing products to offer a rainbow of colors for both interior and exterior applications.

In addition to solid colors, Spectis can also produce faux finishes of granite, limestone, rough sawn lumber, hewn beams, stucco, and countless others. If you have a project, which requires pre-finishing, contact your Spectis Customer Service Representative for more information and pricing.

Fire Rated Products

In addition to our standard polyurethane products, Spectis offers polyurethane products with either a Class A or Class B fire rated products as tested by Underwriters Laboratories in accordance with UL 723, "Test for Surface Burning Characteristics of Building Materials".

For your next project, which requires Fire ratings, call your Spectis Customer Service Representative for more information and pricing.

"Building Greener Spaces"

Spectis Moulders Inc. continually improves its manufacturing process to provide the greatest possible quality with minimal affect to the environment. The following are some examples of what we do to minimize environmental impact:

1. Our products have never been made from CFC's, HCFC's, or any other ozone depleting compound.
2. All of our products are coated with water base paints, which reduces the greenhouse effect and exceeds government VOC regulations.
3. All of our products are chemically stable and non-reactive.
4. None of our products emit toxic gases.
5. We use materials, which contain post-consumer content. This reduces landfill loading.
6. All waste materials are routed for recycling.

FLEXIBLE MOULDING

Spectis has over 500 moulding profiles in our catalogue for use in just about any design situation. In addition to the rigid polyurethane, we also produce most of our profiles in either **Iron** or **Deco Flex**. These products can be used around a variety of radii and will match up to Spectis' rigid material. For specific information and pricing on Spectis flexible material please contact your Spectis Customer Service representative. Refer to page 193 for flexible moulding installation instructions.

Iron Flex is an elastomeric semi-flexible material, which can be used in either interior or exterior applications. This material can only be used for profiles made with a flat back.

Deco Flex is cellular polyurethane, which can only be used for interior applications. It can be used with most of our profiles.

TECHNICAL DATA SHEET ————— IRON FLEX

DESCRIPTION

SE440 is a composite polyurethane elastomer system, formulated for the manufacture of flexible moulding and trim.

UNIQUE PROPERTIES

Iron Flex has become an industry standard with over 10 years of consistent performance in the production of flexible mouldings. Iron Flex is specifically designed to produce an extremely flexible moulding that is nailable, stainable and paintable, to be used in place of wood millwork. Iron Flex outperforms natural wood in that it will not crack, rot, warp or allow insect infestation.

TYPICAL PROPERTIES: IRON FLEX		
VISCOSITY;	A component	150 cps
	B component	4000 cps
RATIO; A/B	20/80	
SPECIFIC GRAVITY	1.3 g/cc	
DUROMETER SHORE A	88	
% SHRINK DURING CURE	0.05%	
CET; in/in/F x 10 ⁻⁵	6.2	
SERVICE RANGE	-40 to 200 F	

MOULDINGS

MOULDINGS

MD 1484

- 36 " Projection
- 36" Height
- 12'0" Length

This moulding is made up of five pieces of moulding which can be shipped unassembled for ease of mitering or it can be shipped assembled.

NOTE: The corbels (BL 2604A) and plates (BL 2604B & C see page 52) are sold separately.

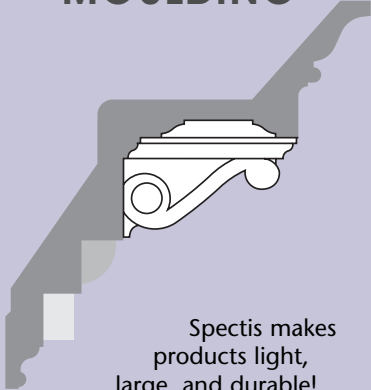

The above moulding measures 36" X 36" X 12' long. It was produced with the corbels shipped separately for easy spacing after installation.

NOTE: The corbels and plates are sold separately.

LARGE MOULDING

Spectis makes products light, large, and durable! Using Spectis' one-piece cornices eliminates the need for multiple scaffolding setups and permits for simpler blocking, which shortens installation time, allowing for greater contractor profitability! Contact your customer service representative for Spectis' one-piece cornice.
