

METRIE™

—  
THE ART OF FORM  
SINCE 1926

MIDWEST – CHICAGO 2015-2016

THE  
*Art* of  
FORM

Since our beginnings as a small family-owned business in 1926, our dedication to creating high-quality, finely crafted architectural elements has helped us grow to become the largest supplier and manufacturer of solid wood and composite moulding in North America. Through our seven domestic manufacturing facilities, 26 distribution centers and global supply network, Metrie™ offers everything you need to set the stage for your space and your project's success.

### **Finish Before You Start™**

Interior Finishings are decorative interior products that create the look, feel and flow of design throughout your home. They include trim, interior doors, wall treatments, ceiling treatments and mantels – all of which significantly impact the overall impression of a room or space. Select your finishings early in the design or renovation process for a professional designer look in your home.

In other words, finish before you start.

# THIS IS then & NOW

Then & Now Finishing Collections™ offer professionally designed and perfectly coordinated trim and interior doors to suit a wide range of decor styles that take the guesswork out of selecting interior finishings. Each Collection is inspired by a different architectural style and includes everything from crowns to baseboards and architraves to unique Ikon™ rosettes. Every element is made from premium-quality materials to create a professional look every time. So you can open the door to a whole new world of inspiration, crafted piece by piece for an exquisite, lasting impression.

## *you CHOOSE the SCENE*

Each Finishing Collection contains a series of coordinating moulding profiles called Scenes. The Scenes range in wood species, size and design to allow flexibility in creating a unique space within a particular Collection style.

# FASHION FORWARD

## COLOR AND LINES

Fashion Forward panel moulding profiles create modern linear movements through this space, while white and gray colors work to create a simply sophisticated look. The bright accent of gold paint on the custom mirror frame and Ikons™ adds a focal element to the room that is sure to capture attention.

## WOOD AND STAIN

The Poplar grain and painted MDF elevate the classic yet playful shapes of Fashion Forward mouldings to create the traditional elegance of this room with a modern twist. Finishing the MDF pieces in a uniform tone, like the gray on gray seen here, evokes a look that is ready for next year's hottest trend.

## A PERFECT FIT

Each moulding profile within the Fashion Forward Collection has been meticulously designed, so that they meet with a precise and proportioned fit, helping you achieve a designer look and professional result every time.

## FASHION FORWARD™

We've taken classic elements and added a twist to each one. Simple, but sophisticated. Classic, but playful. You can make this Collection speak to so many styles. Go with rich sienna brown stains and create a Bistro feel. Evoke a Retro look by finishing the elements with high-contrast primary tones. Each of the three Scenes in this Collection is transitional, melding traditional and modern – leaving enough room for next year's hottest trend.

For this room, designer **Sophie Burke** took the transitional style of Fashion Forward Scene II elements and added Scene III panel moulding (below the chair rail) for a decidedly Urban look.

FASHION FORWARD™

# doors

Fashion Forward interior doors have been designed to coordinate with all three trim Scenes, and are available in both solid core and glass options. All of these door designs feature concave shapes that echo the subtle sophistication of the Collection. The patterned glass door also carries the style of the Collection with the exclusive Nano pattern.

	96"		•			•	•	•	•	•	•	•
Glass Doors 1 3/8" Thick												
Width		24"	28"	30"	32"	36"						
Height	80"	•	•	•	•	•						
	84"	•	•	•	•	•						
	96"	•	•	•	•	•						

Premium solid core and glass doors are pre-hung on double-rabbeted jambs in Finger Joint Pine, Poplar or White Oak. Double doors do not arrive pre-hung; some assembly required.

Choice of four hinge finishes: Oil-Rubbed Bronze, Polished Chrome, Antique Brass and Satin Nickel.

- A solid MDF core for a quality feel that resists warping and reduces sound transmission room to room
- MDF-router carved, primed and ready for painting
- Proprietary sticking on the door carving that echoes the lines in the Collection
- Glass doors are available in clear or textured, tempered glass, ensuring user safety
- Available pre-hung for easy installation and proper alignment in the frame
- Ball bearing hinges for smooth operation
- Double-rabbeted jamb available in 4 9/16" and 6 9/16"
- All doors can be special ordered as 20-minute fire-rated with 1 3/4" depth. Ask your supplier for more special order options.

Fashion Forward moulding and trim elements within Scene III provide a design palette with larger profiles and more intricate architectural detail.

Scene III

CFFROSPOP | IKON  
4" x 4"  
6" x 6"

This Fashion Forward Ikon™ was finished in silver metallic paint, and then polished to create a realistic looking metallic shine. This contemporary treatment would be a beautiful component in a mirror or artwork frame. It could also accent the hardware on doors and other metal elements in the room. All Ikons are sold in Poplar.

CFF3W2SPO | POPLAR | CROWN  
2 3/4" x 8"  
(INSTALLED DIMENSIONS)

# FRENCH CURVES

## SYMMETRY MEETS ELEGANCE

The French Curves Collection is based on designs from the Greeks and Romans. That influence is evident from the architectural symmetry seen in the sculptural curves and pronounced convex elements. Yet their symmetry doesn't affect the elegance of these mouldings, which flow ornately across walls, and from the top to the bottom of a room.

## WOOD AND PAINT

French Curves uses a mix of MDF and engineered Poplar to create voluptuous and graceful curves and play with classic forms to emulate a European Style. Take the paint-grade MDF in a classic French Traditional direction with a white tone. Or accent the curves with a rich color for a modern look.

## THE CHOICE IS EASY

Deciding on mouldings and other finishing elements is easier with Metrie™ Then & Now Finishing Collections™. We enlisted the help of top interior designers to create coordinated foundational mouldings, trim and doors. Each of them is designed to work as a cohesive system and give you a base on which you can layer on a variety of decorative styles and trends.

## FRENCH CURVES™

If you're inspired by the glamorous curves and classic forms of the Baroque and Empire periods, you'll love our French Curves Collection.

The elements here lean toward the formal and sculptural, but you can take them in so many contemporary directions. For example, with a simple whitewash you can bend the Collection toward Shabby Chic or Paris Flea Market. Use a dark shade of paint or stain and move it toward a Contemporary French Country. We've set three Scenes to help spur the possibilities. You decide how the elements are set, you choose the finish, you direct the scene.

The timeless, detailed look of this room was created by designer **Andrew Pike** with a mix of French Curves Scene I and Scene II.

FRENCH CURVES™

# Doors

The French Curves interior doors have been designed to coordinate with all three trim Scenes, and are available in both solid core and glass options. Their Poplar construction truly shines through a clear coat or stain, but also creates a glamorous look with a light tone of paint. The patterned glass door carries the elegance and classic style of the Collection with the Hourglass texture.

# PRETTY SIMPLE

## TRADITIONAL: REFRESHED

Push the boundaries of traditional Colonial Style with a modern twist of simplicity. The Red Oak creates a comforting, charming aesthetic that blends American Colonial design with simplified European Style for a refreshed look.

## WOOD AND STAIN

Red Oak becomes the star in Pretty Simple Scene II finishing elements. Its red undertones glow warmly through stains and clear coats. It can also lean more Folk or Country with different finishes.

## INSPIRED DESIGN

The Pretty Simple Collection is inspired by the charm and classical look of Colonial architecture. This interpretation was carefully designed to work with up-to-date design trends and styles.

PRETTY SIMPLE™

Are you attracted to symmetry, but not to pure Minimalism? Then you'll want to explore this Collection, inspired by the charming aesthetic and decorative detail of the Colonial period. Examine both Scenes carefully. You can easily take this Collection down the road to Folk Art with rich historical milk paint colors or more Country with mid-tone brown stains. We give you great bones to work with – you flesh out the scene.

Designer **Sandra Steiner-Houck** selected Pretty Simple Scene I and Scene II elements to push the boundaries of traditional design concepts in this room.

PRETTY SIMPLE™

# doors

The Pretty Simple interior doors have been designed to coordinate with the two trim Scenes, and are available in both solid core and glass options. Their versatility of design styles works along with other elements in the Collection, letting you take them more Folk, Country, Colonial or Minimalist.

# TRUE CRAFT

## UNUSUAL COMBINATIONS

True Craft Scene III finishing elements come together in interesting ways in this room. Fir chair rail was used to create a tall, 6-foot high wainscoting effect. Ikons™ adorn the corners of the barn-style sliding doors to add texture and detail. The fireplace is also embellished with two large casings combined to create a butterfly pattern.

## WOOD AND STAIN

These Scene III vertical grain Fir mouldings create a natural, rustic feel. The addition of a gray-tinted stain helps showcase the intricate grain of the Fir, while subduing its red undertones. This adds to the authentic, modern aesthetic of the room.

## PROPORTION AND FIT

This grand room is the perfect setting for the larger, substantial moulding style of the True Craft Collection. These larger elements are meticulously proportioned to create a Craftsman Style look, while giving this large space a more comfortable feel.

TRUE CRAFT™

The warmth and honesty of authentic, utilitarian design. There's nothing quite like the aesthetic created by the Craftsman, Mission and Prairie Style movements. Simple, linear, direct. Use these elements as the setting to create a Southwest Style with sun-washed tones. Go Mountain Modern by dry brushing a cool gray stain. Create a mid-century Bungalow feel by letting the Fir grain show through a warm whitewashed paint. So many places to land when you start here.

Designer **Donna Guerra** evokes a cozy, rustic feel with the beautiful look of vertical grain Fir from the True Craft Scene III elements.

TRUE CRAFT™

# doors

True Craft interior doors have been designed to coordinate with all three trim Scenes and are available in both solid core and glass options. The interior sticking of all three doors uses a chamfer design that echoes the warm, authentic craftsmanship style of the Collection. The patterned glass door also adds to the sincere nature of the Collection with the exclusive Pendulum pattern.

Premium solid core and glass doors are pre-hung on double-rabbeted jambs in Finger Joint Pine, Poplar or White Oak. Double doors do not arrive pre-hung; some assembly required.

Choice of four hinge finishes: Oil-Rubbed Bronze, Polished Chrome, Antique Brass and Satin Nickel.

- A wood core for a quality feel that resists warping and reduces sound transmission room to room
- Stile and rail door made from paint-grade material
- 12" bottom rails fit proportionally with today's larger homes
- Interior sticking uses a chamfer design that echoes the Craftsman style of the Collection.
- Glass doors are available in clear or textured, tempered glass, ensuring user safety
- Available pre-hung for easy installation and proper alignment in the frame
- Ball bearing hinges for smooth operation
- Double-rabbeted jamb available in 4 9/16" and 6 9/16"
- All doors can be special ordered as 20-minute fire-rated with 1 3/4" depth. Ask your supplier for more special order options.

True Craft moulding and trim elements within Scene III provide a design palette with larger profiles and more intricate architectural detail.

# VERY SQUARE

## SIMPLE GOES ZEN

The traditional, geometric lines of Very Square can take on many different characters. Use medium-toned paint on both your walls and trim to give these strong lines a warm Asian Zen feel. They can also mimic an Art Deco look, as well as many other styles.

## WOOD AND STAIN

Rift cut White Oak in Scene III creates a decidedly contemporary look through the use of long linear grain patterns. Take it West Coast Contemporary with a glossy white finish, or use a lighter stain to let the grain shine through.

## STRONG LINES

The Very Square Finishing Collection embraces the beauty of strong lines and a precise geometry that lend themselves to a variety of styles. These lines create a simple Urban feel without appearing overly decorative.

## VERY SQUARE™

Art Deco meets Asian Zen. You'll see notes from the tech world. If you're drawn to strong, crisp lines and precise geometry, this Collection is a great place to start. Finish it with clean white paint and go West Coast Contemporary. Stain it a light matte and bring out the Minimalist. Use today's hottest paint color and take it to the Urban Edge. Very Square is a great foundation on which to layer the most contemporary styles.

Designers **Alexandre Blazys** and **Benoit Gérard** paired eclectic accessories with Very Square Scene II mouldings to define this home office.

VERY SQUARE™

# Doors

The Very Square interior doors have been designed to coordinate with all three trim Scenes, and are available in both solid core and glass options, including a flush design on the Rift Cut solid door. The horizontal grain of the rift cut White Oak echoes the lines of the Collection and allows for a modern interpretation of the style. You can also carry this Collection's style with the Tempo pattern in the patterned glass door option.

## REGIONAL PRODUCTS

# naturally wood

**Wood. Organic, natural – there's nothing quite like it.**

**Strong and durable, yet soft and warm, a family of personalities each expressed through grain and character. Bold, reserved, mysterious, determined.**

**We use wood as a catalyst for transformation. Each species has the power to redefine a space and lend a character that is completely unique.**

**Red Oak can create a warm and traditional look, while Poplar creates a crisp, modern feel. Understanding the differences between types of wood opens new doors to design and brings us closer to the natural world.**

## HEMLOCK

Hemlock is a design chameleon; it can be used to create a variety of different looks simply by switching grain direction, types of stain and more. Its diversity of looks makes it a designer favorite. Embrace your style with a stain or play with alternating grains for a unique look.

## DOUGLAS FIR

A softwood, Douglas Fir is offered in two different grains. The mixed grain truly celebrates the wood's natural feel and depicts a Southwest Style with a creamy, sun-washed tone. You can also paint it a warm white to create a Bungalow Style. The popular vertical grain is a prestigious cut of Fir, combining multiple linear lines stacked on top of each other. Showcase the beauty of vertical grain with a dry-brushed, cool gray stain for an of-the-moment look.

## RED OAK

Red Oak is versatile, yet traditional. It is the hardest wood in our offering and creates a strong, traditional look with a red undertone. Use Red Oak with a variety of stains to evoke a Colonial feel that glows with red warmth. Red Oak can be found in the Pretty Simple Collection and in other Metrie™ products.

## WHITE OAK

A designer favorite, this hardwood has a decidedly Contemporary look and can be found in the Very Square Collection. By using rift cuts, which run from the center of the tree outward and are perpendicular to the grain, White Oak creates long, linear lines that echo the personality of Minimalist designs. Create a West Coast Contemporary Style with a glossy white, or get an Urban Edge with the year's popular colors. Both paints and stains lay well over White Oak's grains, while still allowing them to show through.

## POPLAR

Another designer favorite when paint-grade wood is needed, Poplar is one of the softer hardwood species. Typically, Poplar's smaller lengths of wood have been used to create finger joints, where ends of pieces are notched and slide together – just like interlacing your fingers. We have aligned and combined sections of Poplar to create larger lengths of this beautiful wood, also known as engineered Poplar. Accent its crisp grain lines with rich tones of stain or paint it for a more modern look.

## EASTERN MAPLE

A harder, straight-grain wood, Maple adds a natural luxury to any space. Maple's blond color and mild graining create a Contemporary look and work well with many different stains. Add a varnish for a woodsier feel, or coat it with a medium stain to make it more Contemporary.

## FINGER JOINT PINE

This softer, easy-to-work-with wood comes pre-primed with a lacquer-based primer. It eliminates grain raise, fuzzing and conceals the finger joints. Its softer nature makes it easy to install, which makes it very popular. This type of wood works best when painted.

## KNOTTY PINE

Soft, yet bold, Knotty Pine adds a distinct character to a room. Its reddish-brown knots create interest and texture. Add a darker stain to subdue differences in the grain and knots, or add a clear finish to celebrate the character of the wood and create a more rustic Country look.

## MDF

Soft and easy to install, MDF offers similar benefits to Finger Joint Pine. It is manufactured in standard builder lengths; is free of knots, splits, checks or raised grains; and copes and miters easily.

## ALDER

This softer, sometimes knotty, wood adds a rustic look much like Knotty Pine. Alder has a natural red undertone and can have either prominent or subdued graining. Its rustic and woody appearance creates a distinctly West Coast Style but can be used anywhere.

## ARCHITRAVES

High above windows and doors, architraves work to add grandeur to any space – reducing miter lines and elevating your look. A great architrave is, above all else, the dressing that’s built to impress.

# BACK BANDS

## BACK BANDS

Back bands are used in conjunction with casing or baseboard to create a wide variety of trim options for windows and doors.

## BASEBOARDS

### BASEBOARDS

Your look starts here – at the foundation of a room.

A great baseboard complements a casing and creates a smooth transition from the wall to the floor, guiding you seamlessly from room to room.

## BASEBOARD CAPS & SHOES

Baseboard caps are added to the top of regular baseboard moulding and flush to the wall to create a finished and more complex architectural moulding. Baseboard shoes are primarily used to trim flooring materials and are often used in combination with a traditional baseboard to conceal variations between the flooring and the base. However, this versatile profile works great to solve numerous trimming needs.

## CASINGS

Casings bring a room together – left to right, top to bottom. And like any framing element, the options are endless, from build-ups of multiple pieces to full wraps. With casings, there's no wrong way, only your way.

## CHAIR RAILS

The chair rail runs along the wall, parallel with the baseboard. Adding a refined decor to any space, it's the subtle choice that makes a big impact. The chair rail perfectly complements a wainscot design.

## DOOR STOPS

### DOOR STOPS

The door stop mouldings are attached to the door jamb on both sides and at the top. It is where the door comes to a rest when it is closed, stopping the door from moving any further and covering the gap that would otherwise appear between the door and the jambs.

## MISCELLANEOUS

### ASTRAGALS

An astragal is commonly used to seal between a pair of doors. The astragal closes the clearance gap. The vertical moulding attaches to a stile on one of a pair of doors against which the other door strikes or closes.

Stock Code Dimensions  
**1304F07** 1 1/4" x 2 1/4" x 7'  
**PIN**

**1304POPF08** 1 1/4" x 2 1/4" x 8'

**1305OF08** 1 1/8" x 2" x 8'  
**O**

**1305POPF08** 1 1/8" x 2" x 8'  
**POP**

### BAR RAILS

A curved moulding that conceals the edge of a bar top and provides a decorative look.

Stock Code Dimensions  
**40960** 1 1/4" x 3" x RL  
**O**

**561440** 1 3/4" x 4 1/2" x RL  
**O**

## MISCELLANEOUS

### BRICK MOULDS

A brick mould is mainly used as exterior casing around doors. The most common size is 2"; however, 1 1/2" and 1 1/4" sizes are available. Brick moulds can also be used in place of a crown and as a transition under window sills.

Stock Code	Dimensions
<b>180</b>	<b>1 1/4" x 2" x RL</b> <b>PIN</b>
<b>180FJF17</b>	<b>1 1/4" x 2" x 17'</b> <b>FJP</b>
<b>180LP</b>	<b>1 1/4" x 2 1/4"</b> <b>FPP</b>
<b>180P</b>	<b>1 1/4" x 2" x RL</b> <b>FPP</b>
<b>180PF08</b>	<b>1 1/4" x 2" x 8'</b> <b>FPP</b>
<b>180PF10</b>	<b>1 1/4" x 2" x 10'</b> <b>FPP</b>
<b>PVC180-18</b>	<b>1 1/4" x 2" x 18'</b> <b>PVC</b>

### BED MOULD

Similar to crown moulding, used to cover the joint between the ceiling and wall. Can be either sprung or plain, or flush to the wall as an extension of a cornice mould.

Stock Code	Dimensions
<b>74</b>	<b>3/16" x 1 3/4" x RL</b> <b>PIN</b>

### CHAMFER STRIP

Utilized where kitchen cabinet tops meet the walls or as a linoleum cove. Sometimes used for window applications.

Stock Code	Dimensions
<b>995</b>	<b>3/4" x 3/4" x RL</b> <b>PIN</b>

### DRIP CAP

Applied over exterior window and door frames to keep water or moisture from seeping under the siding. Drip caps also direct water away from window glass. Drip caps may also be called sills.

Stock Code	Dimensions
<b>187</b>	<b>1 1/16" x 2" x RL</b> <b>PIN</b>

### DENTIL

A moulding pattern with a series of closely spaced rectangular blocks and spaces. Used especially in classic architecture.

Stock Code	Dimensions
<b>2502POP</b>	<b>1 1/16" x 7/8" x RL</b> <b>POP</b>

### FULL ROUNDS

Full rounds are used for numerous purposes and projects. Some of the more common uses are closet poles, curtain rods and towel rods.

Stock Code	Dimensions
<b>233</b>	<b>1 5/16" x 1 5/16" x RL</b> <b>PIN</b>
<b>233H</b>	<b>1 5/16" x 1 5/16" x RL</b> <b>H</b>

## MISCELLANEOUS

### CORNER GUARDS

Corner guards are used to protect the outside edges of the wall from damage and abrasion. Corner guards come in a wide variety of sizes and detailing.

Stock Code	Dimensions
<b>204</b>	<b>1 1/4" x 1 1/4" x RL</b> <b>PIN</b>

### HALF ROUNDS

A cross section of a half round looks like a half circle and is used primarily as decorative trim. It works well as a trim piece for wallpaper or to add a decorative pattern to flat panels. This profile can also be used to put a rounded edge on various shelving.

Stock Code	Dimensions
<b>120</b>	<b>1/2" x 1" x RL</b> <b>PIN</b>
<b>2448HRPOP</b>	<b>3/4" x 1 1/2" x RL</b> <b>POP</b>

## MISCELLANEOUS

### GLASS & SASH BEADS

Narrow wood strips or moulding used for edging against a door or window sash, or to secure glass panels to doors and windows.

Stock Code **147** Dimensions  $\frac{1}{2}'' \times \frac{3}{16}'' \times \text{RL}$   
PIN

Stock Code **148** Dimensions  $\frac{3}{8}'' \times \frac{3}{8}'' \times \text{RL}$

POP

Stock Code **5039POP** Dimensions  $\frac{7}{16}'' \times \frac{5}{8}'' \times \text{RL}$   
POP

### PICTURE MOULD

A narrow moulding along the perimeter of the walls near the ceiling line traditionally used to support hooks for picture hanging.

Stock Code **273L** Dimensions  $\frac{5}{8}'' \times 1\frac{1}{4}'' \times \text{RL}$   
PIN

### MULLIONS

The upright or vertical member dividing the panels in a door. A mullion is also the vertical member of a sash, window or door frame between openings in a multiple opening frame. The mullion is known as the mullion center. Frames are termed mullions, triples or quadruples, depending on whether they have one, two or three mullions, respectively. On doors, they are sometimes referred to as muntins.

Stock Code **972** Dimensions  $\frac{3}{8}'' \times 2'' \times \text{RL}$   
PIN

Stock Code **974** Dimensions  $\frac{3}{8}'' \times 1\frac{3}{8}'' \times \text{RL}$   
PIN

### LATTICE

A thin strip of flat moulding commonly used to hide seams and edges.

### SHELF CLEAT

Affixed to walls of closets or pantries to hold up shelving boards.

Stock Code Dimensions  
**990LFJ** 9/16" x 1 1/16" x 16'  
FJP

### SQUARE

Squares are used in the framing of shelves and cabinets, or are used to build up other profiles. Its uses are mostly utilitarian.

Stock Code Dimensions  
**239** 3/4" x 3/4" x 16'  
PIN

### STAIR NOSING

The usually rounded edge of a stair tread that projects over the riser.

Stock Code Dimensions  
**200WCPOP** 3/4" x 2" x RL  
POP

### SKIRT BOARDS

A long board that trims under the balustrade on the wall or stringer below a staircase.

Stock Code Dimensions  
**10663SBM\*** 5/8" x 11 1/4" x 16'  
MDF/UL

Stock Code Dimensions  
**10623SBM\*** 5/8" x 11 1/4" x 16'  
MDF/UL

## MISCELLANEOUS

### SHINGLE MOULD

Originally used on the rake of a building or around exterior window frames. May also be used in applications similar to panel moulds.

Stock Code Dimensions  
**210P** 1 1/16" x 1 5/8" x 16'  
FPP

Stock Code Dimensions  
**2464PMPPOP** 3/4" x 2" x RL  
POP

### WAINSCOT CAPS

A wainscot cap is used to finish the top edge of a wainscot wall treatment. It may also be used as one component of a larger chair rail profile.

Stock Code Dimensions  
**292L** 5/8" x 1 1/8" x RL  
PIN

Metrie™ is North America's leading manufacturer and distributor of interior finishings.  
Our industry position has allowed us the resources, strength and leadership to  
create solutions that make it easier for consumers and design professionals to select,  
purchase and design with interior mouldings and doors.

To learn more about our company and our story, visit [Metrie.com](http://Metrie.com).
